REAL MEAT, REAL WOOD SMOKED TURKEY BACON

There are big differences in brands of turkey bacon. Luckily for consumers, they are easy to see. Most of the biggest brands of so-called Turkey Bacon are mass produced from "mechanically separated turkey". This produces a material formed and colored to look like bacon. One look at GODSHALL'S Real Meat Turkey Bacon shows you the difference. Our bacon looks like meat because it is real thigh meat, smoked over real wood to give it that unmistakable bacon taste.

Check GODSHALL'S ingredient label, it's not full of chemical flavors and colors. When you use real meat, the flavor takes care of itself!
