

Corrugated Pizza Boxes

Your pizza. Our box. Ingredients matter.

Consumers are paying attention to the ingredients in the food you serve. At WestRock, we're equally careful about the choices we make when manufacturing your pizza boxes. We deliver foodservice containers that meet the highest quality and food safety standards.

As the preferred supplier to many national, regional, and local chains, our unique manufacturing processes with inline pre-print, corrugating, and die-cutting offer a wide selection of pizza and foodservice products to keep your products fresh and your customers coming back for more.

In the end, your pizza box does more than just deliver pizza, it also delivers your brand message. Capture your customer's attention by adding pizzazz to your pizza box with custom graphics and printing. We lead the industry with more than 30 years' experience in pizza box manufacturing and we have solutions to meet your everyday demands.

Our recent acquisition of Star Pizza Boxes means even more options for small chain customers. Contact [WestRock](#), [Star Pizza Box](#), or your local distributor for more information.
