

# A/Temp Rinse Aid W/Dry Agent

## PRODUCT DESCRIPTION

This concentrated rinse additive is specially formulated for use in both low and high temperature dish machine applications. Special conditioning agents reduce surface tension to provide rapid draining and rinsing. Controlled foam formula works over a wide temperature range and counteracts spotting caused by water impurities and dissolved solids. Compatible with both quaternary ammonium and chlorine sanitizers at use concentrations.

**Dilgard Item #**  
**77702**

**Vendor Item #**  
**202-5**

## **Packaging Qty**

1, 5 gallon

## **Piece Count**

5 gallons per case

## **Product Benefits**

- Concentrated
- Speeds drying
- Prevents spotting
- Hard water effective
- Foam controlled

**Usage**  
**Suggestions:**

Place pickup tube from dishmachine dispensing system into container. Product will be automatically injected during the rinse cycle. Follow instructions on your dishmachine procedures poster or consult your service representative for additional application information
