

# Natural 30x37 20-30 Gal .47Mil

## PRODUCT DESCRIPTION

20-30 gallon waste can liners

**Dilgard Item #**  
**86838**

**Vendor Item #**  
**MR30372MC**

## **Packaging Qty**

20, 25 CT

## **Piece Count**

500 can liners per case

## **Product Benefits**

High Density Mini-Rolls provide answers to questions of environmental responsibility as well as cost efficiency. The unique blend of first grade high molecular weight High Density Polyethylene and LLDPE resins is puncture resistant, possesses impressive film strength and performs under temperature extremes of -40°F to 212°F. The high molecular weight of the High Density Polyethylene resin allows us to produce can liners that are approximately one-third the weight of traditional can liners with the same capacity. A lower weight bag of superior strength means less material is being used in production, making the High Density Mini-Roll a good choice when searching for a product sensitive to source reduction responsibility.

*Usage*

*Suggestions:*

Intended for use as a trash can liner
