

Hd Nat 33x40 33 Gal 12 Micron

PRODUCT DESCRIPTION

Pitt Plastics 33x40, 33 gallon trash can liners

Dilgard Item #
86998

Vendor Item #
MR33402MC

Packaging Qty

10, 25 CT

Piece Count

250 Liners per case

Product Benefits

High Density Mini-Rolls provide answers to questions of environmental responsibility as well as cost efficiency. The unique blend of first grade high molecular weight High Density Polyethylene and LLDPE resins is puncture resistant, possesses impressive film strength and performs under temperature extremes of -40°F to 212°F. The high molecular weight of the High Density Polyethylene resin allows us to produce can liners that are approximately one-third the weight of traditional can liners with the same capacity. A lower weight bag of superior strength means less material is being used in production, making the High Density Mini-Roll a good choice when searching for a product sensitive to source reduction responsibility.

Usage
Suggestions:

Intended for use as a trash can liner.
