

Clear 30x36 20-30 Gallon .45 Mil

PRODUCT DESCRIPTION

Clear can liners are becoming increasingly popular in areas where recycling is prevalent, because they allow quick and easy visual confirmation of visibility to prevent unwanted disposal and help prevent pilferage of items that could be concealed in opaque liners. This is Pitt Plastics highest quality clear can liner. Vu-Thru liners are produced with only the highest quality virgin resins. Because they are manufactured to Pitt Plastics rigorous quality standards, these liners are USDA and FDA approved for food storage.
