

Dilgard Produce

PRODUCT DESCRIPTION

Apples, US XF Gold Del
88ct 2DYS

Pk/Size

1 CTN

Dilgard #

P99015

Apple Facts:

Good-quality Golden Delicious apples will be firm with smooth, clean skin and range in color from light green to pale or creamy yellow. Less mature product will be light green and have a somewhat tart flavor. More mature goldens will have a clear yellow color and will be sweeter. Some goldens may have a wash of pink color or blush across the "shoulders," the result of warm sunny days and cool nights. Test the firmness of the apple by holding it in the palm of your hand. (Do not push with your thumb). It should feel solid and heavy, not soft and light.
